

# Galleria

A COLLECTION OF IMPORTS

THANK YOU...

for choosing your giftware from Galleria.

**WHATEVER THE OCCASION**, our serving ware will allow you to go from formal to casual entertaining with style and charm. Your product is made from lead-free, recycled metal alloys.

**EACH UNIQUE ITEM** is hand cast in a sand mold, removed and polished to a luminous shine. It is not made by a machine, therefore, *all pieces will contain a natural flaw*. A pleasing, rich patina is established with use.

**YOU MAY** place the serving ware in the oven; however, a darkening of the luster may occur as a result. The nature of the metal allows the dish to both store heat and conserve cold temperatures.

**IN CARING** for your item, it is not recommended to leave foods or liquids in it for an extended period of time. A noticeable discoloration will occur if any item, especially acidic foods, is left too long. We advise coating the piece with cooking spray before each use. Do not stack items or cut food in or on your piece. Under these conditions, scratching will occur. Spotting may also occur if it is not cleaned and dried immediately after use.

**TO CLEAN**, simply use mild soap and water. Dry with a soft cloth.

*Do not place the dish in a microwave or dishwasher.*

**BEST OF ALL... IT NEVER NEEDS POLISHING!!!**
